Cluster Oakwood, Jalan Taman Raya Kencana. Bukit Cimanggu City Blok Kc 11 No. 14, Kota Bogor

I'm an Informatics graduate from Telkom University who enjoys learning and is brave to step into unfamiliar territory. I can work effectively both independently and as part of a team, as shown through my academic and organizational experiences. I have a solid grounding in technology and problem-solving, and right now I'm focused on gaining real-world experience, sharpening my skills, and figuring out where my passion truly takes me professionally.

Education Level

Telkom University - Bandung, Indonesia

Sep 2022 - Jan 2026

Bachelor of Informatics, 3.66/4.00

- Graduated Cum Laude
- Relevant Coursework: Statistics, Calculus, Programming, Project Management, Big Data & AI, Data Visualization, Machine Learning
- Developed strong logical thinking, problem-solving, and creativity through rigorous coursework and projects

Work Experiences

Telkom University - Bandung, Indonesia

Sep 2025 - Jan 2026

Lecturer Assistant

- Assisted in teaching data structure concepts to 30+ students using C++.
- Provided feedback on algorithm design and efficiency in assignments and projects.
- Supervised students during lab sessions and examinations.
- Took attendance and supported overall course administration.

FaveHotel - Bogor, Indonesia

Jul 2025 - Sep 2025

Internship

- Designed and built a digital laundry logbook application to replace manual record-keeping.
- Developed a QR code-based inventory tracking system integrated with spreadsheets for real-time monitoring.
- Learned and practiced receiving procedures and store room management in a hotel environment.
- Collaborated with 10+ hotel staff to ensure systems met functional requirements and provided training for end-users.

Organisational Experience

Student Volunteer

Jan 2024 - Jan 2025

Logistics Member

The Logistics Division within a university's Student Volunteer Program plays a crucial role in ensuring the smooth operation of events and activities organized by student volunteers.

- Coordinated cross-division event planning for workshops, seminars, and community service projects, ensuring smooth execution from start to finish.
- Managed end-to-end resource allocation — venues, equipment, and supplies — to support consistent event operations.
- Handled volunteer and participant logistics including transportation scheduling to ensure punctual arrivals and departures.

Student Volunteer

Jan 2025 - Jan 2026

Media Production Member

The Media Production division oversee all the social media aspect and promotion regarding events and/or future works of the student volunteer. We focus on making and shooting new content for student volunteer and if there are any collaboration with other organization.

- Led social media strategy and promotional campaigns for student volunteer events, driving visibility across platforms.
- Produced and directed original content — from concept to shoot — for the student volunteer program's digital channels.
- Built partnerships with external organizations for collaborative content creation and co-branded campaigns.
