Cluster Oakwood, Jalan Taman Raya Kencana. Bukit Cimanggu City Blok Kc 11 No. 14, Kota Bogor

I'm an Informatics graduate from Telkom University who enjoys learning and is brave to step into unfamiliar territory. I can work effectively both independently and as part of a team, as shown through my academic and organizational experiences. I have a solid grounding in technology and problem-solving, and right now I'm focused on gaining real-world experience, sharpening my skills, and figuring out where my passion truly takes me professionally.

Education Level

Telkom University - **Bandung, Indonesia** Sep 2022 - Jan 2026

Bachelor of Informatics, 3.66/4.00

- Graduated Cum Laude
- Relevant Coursework: Statistics, Calculus, Programming, Project Management, Big Data & AI, Data Visualization, Machine Learning

Work Experiences

PT Taman Wisata Candi (TWC) / InJourney Destination Management - **Yogyakarta, Indonesia** Aug 2026 - Present

Internship

- Revamped the UI of museumprambanan.twc.id, enhancing the digital presence of Prambanan Temple's official museum website.
- Developed the Knowledge Base for an AI chatbot integration into the company's ticketing platform, coordinating content validation across multiple divisions.
- Assisted in building a Point-of-Sale system for the Prambanan F&B unit to streamline data integration with the company's ERP and improve operational transparency.
- Exposed to enterprise operations including ERP workflows, vendor management, and cross-departmental collaboration within a large corporate environment.

Telkom University - **Bandung, Indonesia** Sep 2025 - Jan 2026

Lecturer Assistant

- Assisted in teaching data structure concepts to 30+ students using C++.
- Provided feedback on algorithm design and efficiency in assignments and projects.
- Supervised students during lab sessions and examinations.

FaveHotel - **Bogor, Indonesia** Jul 2025 - Sep 2025

Internship

- Designed and built a digital laundry logbook application to replace manual record-keeping.
- Developed a QR code–based inventory tracking system integrated with spreadsheets for real-time monitoring.
- Collaborated with 10+ hotel staff to ensure systems met functional requirements and provided training for end-users.

Organisational Experience

Student Volunteer - **Bandung, Indonesia** Jan 2024 - Jan 2026

Logistics & Media Production Member

- Coordinated cross-division event planning for workshops, seminars, and community service projects, managing end-to-end resource allocation across venues, equipment, and transport.
- Led social media strategy and promotional campaigns for student volunteer events, driving visibility across platforms.
- Produced original content from concept to shoot and built partnerships with external organizations for collaborative campaigns.
